University of New-York, Sept. 30, 1842. a Card to the Medical Profession and the Public .- The Medical Faculty of the University of New-York desire to ake known to the Profession and the public the following

That they had occasion during last winter to expel from their institution, for offences committed, Mr. James Alexander Houston, a Reporter connected with the "New-York Herald," and the "Lancet," papers of which Mr. James Gordon Bennett is proprietor. That since that event those periodicals have indulged in

incessant attacks on this public institution, misrepresenting is condition. They have widely circulated that it has no means of giving clinical instruction, that it is a failure, that one of its members, Professor Mott, is about to leave it and go to Europe, with many other alterations, which are ut-

Whilst, therefore, the Faculty make known that all the advantages of the New-York Hospital, the Eye and Ear Infirmary, and other similar institutions, are open to their students every day in the week, together with clinical intruction in their own building, that no change whatever has taken place, or is even contemplated in their Professorships-that so far from being a failure the prospects of their choel were never so bright as now, more than sixty studebts having already entered their names on the Matriculation list, a month before the session begins, a thing without precedent among Colleges; they feel that they cannot descend to any altercation with those libellous prints, or with the individual who is the proprietor of them.

But it is their intention forthwith to seek for this public institution the protection of the laws of the country, and call the individual who is endeavoring to perpetrate these injuries to account for his offences before a tribunal of jus-Signed by order of the Faculty. JOHN N. DRAPER, M. D., Sec'y.

N. B .- As the misstatements referred to have been widely circulated by the " Herald," Editors of newspapers in different parts of the United States and Canadas, will oblige the Faculty by giving the substance of this card insertion in o5 lwDltW their journals. Tr Spencer's Imitation Bloleskin Hat.

This popular article is commended to the public as peculiarly desirable, at the present time. for its economy. For elegance and durability, it competes successfully with the most costly Hats worn. Price \$3 25. SPENCER, al6 tf Fashionable Hatter, No. 245 Broad way.

I Hats of the Fall Style are now ready. [The model for the season is a slight modification of the prevailing Paris mode. SPENCER'S Sales Room. s2 tf September 1st.

Orlando Fish, Fashionable Hatter, 187 Broadway, would inform the gentlemen of New York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly ANRRICAN style of Hats, instead of servilely copying the Fashions of Europe, which are often unsuited to our climate and manners, he rejoices to perseive that others have gen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by

the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at \$3 50, and warrants them equal in material, finish, fashion and durability to any Hat sold as low as \$4 in the city But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4 50. These he recommends sequal to any hat sold in New-York at \$5 or under, and challenges for them a comparison with any other.

challenges for them a comparison with any other.

Sentlemen visiting our city are respectfully invited to call and examine his new stock of Winter hats and judge of their quality. He is confident that, whether the cheapest or the best Hat is desired, the inquirer will here be satisfied.

DF Fur Hats at \$3 50.—The subscriber having had a number of applications for a FUR HAT, combining the qualities of beauty and curability, at a reduced price, is made arrangements with his manufacturers by which he vill be enabled, on Wednesday next. Oct. 12th, to offer to is numerous customers, and the public generally, an article which, for fineness of material and beauty of finish, b iels confident will be equal, if not superior, to any thing of he same description that has, as yet, been offered. The shorther will not insult an intelligent public by saying, in the language of an advertiser who claims to regulate (?) the schions, that the article now offered is the same as that mmerly sold for six and even seven dollars; still, he has solestation in asserting that it is worth at least tweive and the per cent more than the price asked. He is also pre-pared to sell a CASSIMERE HAT of superior quality at the same price, for which, together with an assortment of Satia Beaver, Moleskin, and extra fine For Hats, he solicits ashare of public patronage.

THATS! Hats! Hats!—FALL FASHION.— The subscriber invites the attention of the Beau Monde to his beautiful, graceful, and tasteful low bell-crowned flat, being the only really fashionable article of the kind extant, though he cannot expect but imitators will spring up, and claim the benefit of his own original conceptions.

To say that these Hats surpass any thing of the kind in

point of style, finish, and graceful appearance, is to claim no more than is warranted by an experience of twenty years in the business, and he invites gentlemen who study grace and tashion, to call and examine for themselves. A large assertment of Traveling Trunks, Carpet Bags, Hat Cases, and, in fact, every thing necessary for a gentleman's traveling outfit, may also be found at E. BLOOMER'S, 179 Broadway, and this opposite Howard's Hotel.

IT Fall Fashion Blats now rendy-Watson's Sik Hats, only \$2.50, are recommended to the public not only for economy but as possessing all the elegance of con-tour of the most costly; combining utility with beauty; this only for economy but as possessing all the elegance of con-tour of the most costly; combining utility with beauty; this article cannot fail to commend itself to the comnoisseur as well as economist. Also, Moleskin Hats, at \$3.00; Beavers u\$4.50; Cassindere and Nutria Hats, at \$3.50 each; these ite his standard prices, and he need only remark that by confining himself to one quality and price for each descrip-tion of hats, he is enabled to furnish a superior article at prices far below those at which Hats of the same description are now vending by other manufacturers.

A steady and permanent increase of patronage for the start years is a sufficient indication of public judgement,

TG. B. Alvord's \$3 50 Hats, No.: Broadway and No. 12 Bowery, N. Y. having introduced his fall pattern of Gentlemen's Hats in September, the style and many of which is the consequence of a greatly increased dunand, yet the spirit of a landable economy suggests some shatement in prices, to which, as far as practicable, he yields ready assent, and to mat end as the result of experiment and skill in workmanship, he is most thappy in informing his triends and enstomers that in addition to his usual variety, he now offers an article at \$31, which to all appearance is

equal to the more costly.

G. B. At Market, 1000 fresh Cattle, 40 Cows and Calves and 3500
